

**BY DESIGN OR
BY DISASTER**

**HANDS-ON
CONFERENCE**

**26-28th
SEPTEMBER**

**BOZEN
BOLZANO**

Sustainability is unavoidable.

It will happen anyway by the interplay of disastrous ecological, social and economic trends and events. But we could take initiatives: we can design and develop this transition in a process of collective decisions and actions.

This practice-oriented conference wants to explore design and developments for eco-social transformations by showing, discussing and experimenting within a transdisciplinary and participatory setting.
